

# Environmental Policy

## ANS GROUP POLICY STATEMENT

The Directors and Management of ANS Group Plc are committed to operate a business that fully understands its impact on the environment and set clear objectives in the reduction, or elimination, of these impacts and pollution prevention.

Raising awareness of our staff, and our customers we commit to learning and education to further enhance our aims. Underpinned with a supportive and progressive management style that encourages awareness of our responsibilities we will seek ways in which environmental considerations are made in all our business activities.

To reinforce this commitment a Management System, designed for ISO 14001: 2004, operates in all areas of the company. The Management is committed to the continuous improvement of the Management System by establishing and reviewing environmental objectives for all areas of the company. This is to ensure that the company operates responsibly and efficiently and meets the businesses environmental objectives.

## OBJECTIVES

- Ensure business has recorded, measured and managed environmental aspects.
- Operate waste management that prioritises; **reduce, reuse and recycle**.
- Use environmental suppliers and partners where ever possible.
- Ensure environmental procedures are always appropriate to the current business operations.
- Reduce energy and carbon intensity of all our business operations.
- Promote the company's reputation as environmentally aware in the marketplace.
- Use the latest management techniques and modern information technology to reduce our emissions and improve our partner businesses environmental standards.
- Become a carbon neutral business.

*"At ANS Group we recognise the impact we have on our environment. We are committed to delivering cutting edge technology which enables us, and our customers, to reduce our carbon footprint. Environmentally friendly actions do not have to be large scale to make a noticeable impact. By taking small steps together, we can make a large leap towards making the ANS community more environmentally friendly."*

*Paul Sweeney, Managing Director*
