

Experience Communications in High Definition.

LifeSize High Definition Video Communications Solutions. Stunning video. Crystal clear audio. Feature rich to fit the needs of any application. Every LifeSize video communications system delivers high definition audio and video, and integrated data sharing on any IP network. Standards-based and interoperable, LifeSize systems are easily and seamlessly integrated into existing environments and reliably managed with LifeSize Infrastructure and Management solutions.

LifeSize Video Communications Systems. LifeSize pioneered HD video communications to enable organizations around the globe to communicate at a distance as naturally as being in the same room. LifeSize has a solution to suit any organization: LifeSize Conference 200, telepresence tailored to your environment; LifeSize Room 200, our flagship Full HD system; LifeSize Team 200, True HD ideal for distributed workgroups, and LifeSize Express, HD priced for any organization. Find the LifeSize solution right for you and experience the power of communicating in high definition.

LifeSize® Express™
High Definition Video Communications - anywhere

LifeSize® Team™ 200
Enhanced HD Communications for Workgroup Conferencing

LifeSize® Room™ 200
The World's First Full HD Video Communications System

LifeSize® Conference™ 200
The First Full HD Telepresence Solution Tailored to Your Environment

Connect. Control. Manage.

Management

LifeSize® Control™ Manage your video communications networks – centrally, reliably. LifeSize Control provides secure, real-time management and workflow, web based scheduling, on demand reporting and centralized software upgrades and provisioning.

Open and standards-based, LifeSize Control manages heterogeneous video network environments and scales to support your video network as it grows.

Multipoint Control Units

LifeSize® Multipoint™ Connect multiple sites in 720p video and HD audio. Standards-based, LifeSize Multipoint is interoperable with a wide range of systems and is easily managed through the web-based interface.

LifeSize® Multipoint Extension™ Remote participants can easily and seamlessly connect to any conference with LifeSize Multipoint Extension. Simply connect a laptop, webcam, and network, and within minutes anyone can enjoy high quality audio, video and data sharing.

Gateways

LifeSize® Gateway™ enterprise class HD gateway for ISDN to IP connectivity, LifeSize Gateway is ideal for video communications where end points connected to ISDN or private networks are required to communicate with end points connected to the IP networks.

LifeSize® Networker™ The all-in-one gateway, LifeSize Networker provides compact, cost effective connectivity for IP to ISDN networks. Serial or PRI interface, LifeSize Networker supports up to 8 sites over 1 PRI, or 4 BRI to connect all of your resources – simply.

Firewall/NAT Traversal

LifeSize® Transit™ complete firewall and NAT (Network Address Translation) traversal solution that enables video calls within and across organizations. Standards-based H.460 and SIP tunneling, enables secure, simple to use video communications.

Gatekeeper

LifeSize® Gatekeeper™ Intelligent management of IP telephony and video networks. Easily register MCU's gateways and endpoints with the web-based user interface.
